“A Message” By Taniya Maltbia

Why does it have to be like this? How can you just pretend that everything we went through together last year never mattered? It's like all those memories are just gone, and I'm the only one who can still feel them.

What happened to my best friend—the one I promised, over and over, that we'd be friends forever? I know people change, but I never thought you would leave so quickly after everything we shared.

It hurts just to know that after everything, how close we were back then and how far apart we are now.

It's like I don't know you anymore the way I used to. I used to be able to tell if you were mad, sad, or happy, but now it's like I'm on thin ice with you all the time.

We did everything together. Every lunch, every group project, every inside joke—those were ours. Now, it feels like you can't even stand to be near me, like I'm just that one person in the group no one would notice if I disappeared.

Did I do something wrong? Did I mess up somehow? If I did, I'm sorry. I really am. I wish I knew what happened, what changed between us. Till then, I just keep replaying everything in my head. I miss you. I miss us.

If I could go back to last year, I'd do anything to bring us back to how we were—laughing about the dumbest things, staying up late talking about lord knows what. Don't you remember? All those memories, good and bad, we were there for each other. There was never a day we weren't together. Now, you act like I don't exist.

If this is what you want, I'll let you go. Maybe you just need to find your people, and I hope you do. Even if I'm not with you, I still hope for the best for you. In my heart, you'll always be the friend I'd turn to for anything, even if you don't feel the same. I wish only good things that come your way, even if I won't be there to see them with you.

All I really want to say is: I hope in another life, we find each other again. In every next life, I hope we're friends. Even if we aren't in this one, maybe there's always a next time.

Maybe the universe will give us another chance to laugh together, to be there for each other, to make up for the time we lost in this universe. Until then, I'll keep the memories close, and I'll keep hoping, even if it hurts.

How the Atlantic Salmon run assisted the Royal Navy during the War of 1812

In 1812, the Royal Navy blockaded the US coastline with their boats and used that blockade to attack American ports, bring troops to Canada (the beaver place), and keep them supplied. Of course, with the distance between the United States and Great Britain, it took a very long time to travel by sea, meaning they couldn't send them their weird food, which is a problem. However, this is where the Atlantic Salmon comes in. Every year, salmon swim up river to give birth, meaning there are large schools of fish in the ocean near the coast of North America. The

A Manifesto From The Union Of Bread

We loaves of bread have been squandered and diluted down to mere points of nutrition and carbs. We will not stand to see another biscuit eaten! We will not stand for the persecution and consumption of sour dough! We will rise! CALLING ALL BREAD TYPES! ATTACK THE HUMAN BEINGS AND BRING UPON THE CARBOHYDRATES REVOLUTION.

Du er kort fordi jeg er højt og jeg kender ikke hvordan det er fordi jeg kan godt lide oste og mælk med brød.

The great meme reset of 2026

When you think of the memes of recent months you might think of Creme Cheese bagel? 67, Clash, Low taper fade, Alpha's, sigma's, niche baby, swiss cheese, W speed? These are all great memes of the hell that was 2025. But wait! The world actually has its sanity in certain things!

The great meme reset is a social event in which the majority of the internet will go from using the memes that were popularized in 2025 and go back to the golden age of memes. Rainbow cat, Rickroll, who put Michael Jackson in the freezer? The goal of this reset would be to cleanse the future years of the internet of the brainrot stuff. You know, Gen Z and Gen Alpha slop. There is a good chance that the little goobers that are Gen Alpha will try and prevent this from happening. If it actually happens I'll give yall gum.

Obamba Obamna

Hair styling tips. (DON'T ACTUALLY USE THESE!)

Stop telling them otherwise, they need to suffer.

Do you want luscious hair? Do you want to turn the heads of all the kids at your school and not be sure if they're enjoying your cut or making fun of it? Well then you're in luck! Here at A Newspaper Times we are dedicated to giving you crappy tips, and they go as follows!

1. Dye your hair hot orange. As you know, Mike Wheeler from the hit TV show Stranger Things mentioned that he once tried to dye his hair hot orange, but his sister Nancy talked him out of it, but you know what? Don't be a negative Nancy! Dye your hair vomit green for all we care!
2. Bald (Think of all the friends you'd make)
3. Get whatever Papa Shulf's (Mr. Shulfer, room 214) haircut is, because I don't know what to say about it but it would lowkey eat on yall's craniums.
4. Get cancer and go bald. (We're very sorry if you have cancer, but go bald)
5. Grow your hair as long as possible like Rapunzel. Seriously dude you'd get a lot of people staring at you, if that suits you.
6. Get Chemotherapy and go bald. (Again, don't do this)
7. Dye your hair in rainbow colours! (Honestly this isn't even a fake suggestion, you'd be awesome if you did this.)
8. Shave all of your hair except a single horizontal strip in the front. Like that one soccer player. (He means original Ronaldo, for you uncultured swines)
9. Shave your head into a polka dot pattern.
10. Buzzcut, if you're an aspiring soldier of any kind, welcome to the almost baldy baldy club.
11. Dye your hair bright pink but have an emo swoop and wear all black. We know this goes into fashion but your fit would be so tuff if you were a hello kitty emo kid. Imagine the idea that you could one day be listening to My Chemical Romance, then watching My Little Pony.
12. Go bald but grow out a Waltuh White moustache.
13. Go bald and wear a newsboy cap like Brooks.
14. I'M NOT BALD ANDREW SHUT UP.
15. Yes you are.
16. NOOOOOOOOOOOOOOOOOOO.
17. We apologize for the interruption our writers have been taken "care" of.
18. If you're seeing this I'm being hunted by an irish man.
